BIOPHARMA POLICY : Time for Program Completion

Students enrolled in the MS program will have up to 5 years in which to complete the degree starting from their first semester of enrollment. Students enrolled in any of the Certificate programs will have 3 years in which to complete their studies.

Students are expected to be enrolled in every Fall and Spring semester while matriculated unless a leave of absence is requested and approved. If a student would like to step out for a semester but remain on active program status (not on a leave of absence) they must complete a Maintaining Matriculation/Leave of Absence Form. Failure to do so may result in dismissal from the program.

Students enrolled as a Non-Matriculated student taking individual courses may only take up to 12 credits. If they do not take a course in a one year period of time they will become inactive and need to re-enroll to take additional courses.
